## **Key Features**

- 4 lighting colors and multiple lighting modes to meet different needs.
- Max 4000lm and 2.5 hours runtime for underwater photography.
- High CRI with 9 CREE LEDs to restore natural colors.

# Easy to Use

• Dual independent switches for quick switching to the proper lighting.

## **Safety Design**

- Magnetic press switch with lock function to prevent accidental power-on.
- Smart temperature control for better heat dissipation.
- Low battery indicator prevents unexpected power outages.
- Protection against reverse polarity prevents incorrect battery insertion.

## Tips:

- 1) When the battery is depleted or flashlight is not in use for a long time, please take out the battery.
- 2) Please note the battery polarity when installing the battery, ensuring the positive pole towards the light head.
- 3) For better diving experience and battery protection, please ensure the 4 x 18650 batteries are fully charged before use.
- 4) Please do not wipe the battery with any corrosive material.
- 5) Please keep the O-rings lubricated.
